

## Fund Highlights

- ▶ The fund offers investors access to the potentially exciting long-term investment opportunities in Brazil, one of the world's largest emerging stock markets.
- ▶ It is managed on an active fundamental basis by a small group of decision-makers who are backed by an extensive team of research professionals.
- ▶ The fund has a focus on domestic themes which are expected to remain resilient.

## Investment Aim

The sub-fund seeks long-term capital growth by investing primarily in a well diversified portfolio of investments in equity and equity equivalent securities of companies which have their registered office in, and with an official listing on a major stock exchange or other Regulated Market of Brazil, as well as those companies which carry out a greater part of their business activities in Brazil.

Please refer to the Prospectus for the full Investment Objective of this fund.

## Risk Disclosure

It is important to remember that the value of investments can go down as well as up and you may not get back the amount originally invested. Where overseas investments are held the rate of currency exchange may cause the value of such investments to go down as well as up. Investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in established markets. For a full list of risks, please refer to the prospectus and Key Investor Information Document.

## Fund Statistics (30/12/2011)

<b>Fund size in millions (USD)</b>	1,588.43
<b>Portfolio Turnover *</b>	109.00 %
<b>Volatility **</b>	32.15 %
<b>Tracking Error **</b>	N/A
<b>Information Ratio **</b>	0.22

'Volatility' measures the relative rate at which the price of a security moves up and down.

'Tracking error' measures the volatility of the difference between a portfolio's performance and the benchmark.

'Information ratio' represents the value added of the manager (excess return) divided by the tracking error

\* Source: HSBC, calculation uses the lesser of sales and purchases over the past year.

\*\* Source: HSBC, based on monthly returns over the past three years where available.

There are risks involved with this type of investment. Please refer to the Prospectus for general risk factors, and to the Key Investor Information Document for specific risk factors. It is important to remember that your investment is not guaranteed and you may not get back the amount you originally invested. Investments in emerging markets are by their nature higher risk and potentially more volatile than those inherent in established markets. This sub-fund invests predominantly in one geographic area; therefore any decline in the economy of this area may affect the prices and value of the underlying assets. You should view this investment as medium to long-term, and should plan to keep it for at least five years. UK based investors in HSBC Global Investment Funds are advised that they may not be afforded some of the protections conveyed by the provisions of the Financial Services and Markets Act 2000. The Representative of the Fund in Switzerland is HSBC Private Bank (Suisse) SA in Geneva. The shares in HSBC Global Investment Funds have not been and will not be offered for sale or sold in the United States of America, its territories or possessions and all areas subject to its jurisdiction, or to United States Persons. All applications are made on the basis of the current HSBC Global Investment Funds Prospectus, Key Investor Information Document and most recent annual and semi-annual reports, which can be obtained upon request free of charge from HSBC Global Asset Management (UK) Limited, 8 Canada Square, Canary Wharf, London, E14 5HQ, UK, or the local distributors.

Please Note: To help improve our service and in the interests of security we may monitor on a random basis and/or record your telephone calls with us.
