Chairman

Iain O.S. Saunders

Chairman and Independent Non-Executive Director. A member of the Board since November 1996.

Mr Saunders graduated in Economics from Bristol University and joined Robert Fleming in 1970. He held several senior positions with the group in Hong Kong, Japan and the US, before returning to the UK in 1988. He was appointed Deputy Chairman of Fleming Asset Management and retired in 2001 following the merger of the Robert Fleming group with JP Morgan. Mr Saunders is currently Chairman of several JPMorgan managed Luxembourg-domiciled investment funds and MB Asia Select Fund.

Jacques Elvinger

Non-Executive Director. A member of the Board since January 2009.

Mr Elvinger became a member of the Luxembourg Bar in 1984 and has been a partner of the Luxembourg law firm Elvinger Hoss Prussen since 1987. Mr Elvinger practices general corporate and banking law and specialises in the field of investment and pension funds. He is a member of the High Committee for the Development of the Financial Sector instituted by the Luxembourg Government. He is also a member of the Advisory Committees to the Luxembourg Commission for the Supervision of the Financial Sector in the area of investment funds. He is currently chairman of ALFI's Regulatory Board. Mr Elvinger currently holds a number of board mandates with Luxembourg investment funds including several JPMorgan managed Luxembourg-domiciled investment funds.

Massimo Greco

Executive Director. A member of the Board since November 2015.

Mr Greco, Managing Director, is responsible for JPMorgan Asset Management's Global Funds business in Europe, based in London. He took on his current responsibilities in 2012. Mr Greco has been a JPMorgan employee since 1992, initially with the Investment Banking unit, moving to Asset Management in 1998. Mr Greco holds a degree in Economics from the University of Turin and an MBA (Major in Finance) from the Anderson Graduate School of Management at UCLA. Mr Greco is a Member of the Board of JPMorgan Asset Management (Europe) S.à r.l. as well as other Luxembourg domiciled SICAVs.

John Li How Cheong

Independent Non-Executive Director. A member of the Board since June 2012.

Mr Li is a fellow of the Institute of Chartered Accountants in England & Wales. Mr Li moved to Luxembourg in 1987 and has since been working in the financial sector. Mr Li was a Partner at KPMG Luxembourg for more than 20 years during which he was Managing Partner for 8 years before taking on the role of Chairman of the Supervisory Board for 3 years. Mr Li was also a member of the Global Investment Management Practice of KPMG. During these years Mr Li's experience included auditing and advising clients such as banks, investment funds, insurance companies from Europe, US, Japan and Asia offering Mr Li an extensive experience in dealing with international companies. Mr Li is a board member of the Institut Luxembourgeois des Administrateurs. Mr Li currently holds a number of board mandates with financial institutions including several JPMorgan managed Luxembourg-domiciled investment funds.

Peter Thomas Schwicht

Independent Non-Executive Director. A member of the Board since June 2012.

Mr Schwicht obtained a Business Economics degree from the University of Mannheim in Germany after having studied business, tax and accounting in Hamburg, Norway and the USA and was an employee of JPMorgan Asset Management from 1987 until October 2014. Prior to his retirement Mr Schwicht was the Chief Executive of Investment Management - EMEA, JPMorgan Asset Management. He had previously held positions as the Head of the Continental Europe Institutional business and the Investment Management Country Head for Institutional and Retail business in Germany where he first developed the business and then went on to expand this throughout Continental Europe. Mr Schwicht is currently a Director of several JPMorgan managed Luxembourg-domiciled investment funds.

Susanne van Dootingh

Independent Non-Executive Director. A member of the Board since December 2017.

Ms van Dootingh is an Independent Non-Executive Director of several domiciled investment funds and management companies. Prior to becoming an INED she was at State Street Global Advisors from 2002 to 2017 with her final position being Senior Managing Director, Head of European Governance and Regulatory Strategy EMEA. Prior to this she held various senior positions within State Street Global Advisors in Global Product and Global Fixed Income Product Engineering. Before joining SSGA in 2002 she worked at Fortis Investment Management, Barclays Global Investors, and ABN AMRO Asset Management. Ms. Van Dootingh is currently a Director of several JPMorgan managed Luxembourg-domiciled investment funds.

Daniel Watkins

Executive Director. A member of the Board since December 2014.

Mr Watkins is the Chief Executive Officer of Asia Pacific, J.P. Morgan Asset Management. He is responsible for overseeing the Asset Management Asia Pacific business, which operates in seven locations and includes more than 1,400 employees. Mr Watkins is a member of the Asset Management Operating Committee and the firm-wide Asia Pacific Management team.

Mr Watkins has been an employee since 1997. Prior to taking his current role in 2019, he was Deputy CEO of JPMorgan Asset Management Europe and Global Head of AM Client Services and Business Platform. Mr Watkins has also held a number of positions at JPMorgan namely Head of Europe COO and Global IM Operations, Head of the European Operations Team, Head of the European Transfer Agency, Head of Luxembourg Operations, manager of European Transfer Agency and London Investment Operations and manager of the Flemings Investment Operations Teams.

Mr Watkins obtained a BA in Politics from the University of York and is a qualified Financial Advisor. Mr Watkins is currently a Director of several JPMorgan managed Luxembourg and Irish domiciled investment funds and also several UK legal entities.

Martin Porter

Independent Non-Executive Director. A member of the Board since November 2019.

Mr Porter joined Robert Fleming Asset Management in 1984, and ran equity portfolios in both London and Japan. During his tenure in Japan, he became a holding board director of Jardine Fleming, responsible for the Japanese business. Returning to the UK in 2000, he took up the role of Chief Investment Officer, Equity and Balanced of Fleming Asset Management, before becoming Global Head of Equities of JP Morgan Asset Management, a position he held from 2003 to 2016 when he retired.

The Board of Directors (the "Board") is pleased to present the Audited Annual Report of JPMorgan Funds (the "Fund") for the year ended 30 June 2020, and considers that taken as a whole they are fair and balanced and provide the information necessary for shareholders to assess the Fund's position and performance.

Structure of the Fund

The Fund is a variable capital open-ended investment company, organised as a "Société Anonyme", under the laws of the Grand Duchy of Luxembourg. The Board has appointed JPMorgan Asset Management (Europe) S.à.r.l. (JPMAME) as Management Company of the Fund. The Fund is organised as an "umbrella" with a number of Sub-Funds each of which has its own investment objective, policies and restrictions.

The objective of the Fund is to place the money available to it in transferable securities and other permitted assets of any kind, in accordance with the Fund's Prospectus, with the purpose of spreading investment risks and affording shareholders the results of the management of their portfolios.

The Fund qualifies as an Undertaking for Collective Investment in Transferable Securities (UCITS) under the EC Directive 2009/65/EC of 13 July 2009 and is subject to the Luxembourg law of 17 December 2010, as amended, on undertakings for collective investment. The Fund may therefore be offered for sale in European Union Member States, subject to notification in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Fund and its Sub-Funds may be made in other countries.

The Fund currently has 101 Sub-Funds. All of the Sub-Funds and Share Classes are registered for offer and distribution in the Grand Duchy of Luxembourg and a number of the Sub-Funds and Share Classes are registered for distribution in the following jurisdictions: Austria, Belgium, Chile, Croatia, Curacao and Sint Maarten, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hong Kong, Hungary, Iceland, Ireland, Italy, Japan, Jersey, Korea, Liechtenstein, Macau, The Netherlands, Norway, Peru, Poland, Portugal, Singapore, Slovakia, Spain, Sweden, Switzerland, Taiwan and the United Kingdom. During the year Cyprus was added as a country of registration and there were no de-registrations.

Role and Responsibility of the Board

The responsibility of the Board is governed exclusively by Luxembourg law. With respect to the annual accounts of the Fund, the duties of the Directors are governed by the law of 10 December 2010 on, inter alia, the accounting and annual accounts of undertakings for collective investment and by the law of 17 December 2010, as amended, relating to undertakings for collective investment.

A management agreement between the Fund and JPMorgan Asset Management (Europe) S.à.r.l sets out the matters over which the Management Company has authority under Chapter 15 of the Law of 17 December 2010. This includes management of the Fund's assets and the provision of administration, registration, domiciliation agent and marketing services. All other matters are reserved for approval by the Board and a schedule setting out such matters for clarity is in place between the Board and the Management Company. The matters reserved for the Board include determination of each Sub-Fund's investment objective and policies, investment restrictions and powers, amendments to the Prospectus, reviewing and approving key investment and financial data, including the annual accounts, as well as the appointment of, and review of the services provided by, the Management Company, Auditor and Depositary.

Prior to each Board meeting the Directors receive detailed and timely information allowing them to be prepared for the items under discussion during the meeting. For each quarterly meeting the Board requests, and receives, reports from, amongst others, the Management Company, the investment managers, risk management as well as proposals for changes to existing Sub-Funds or proposals to launch new ones as appropriate. Senior representatives of each of these functions attend Board meetings by invitation to enable the Directors to question the reports presented to them.

The Directors take decisions in the interests of the Fund and its shareholders as a whole and refrain from taking part in any deliberation or decision which creates a conflict of interest between their personal interests and those of the Fund and its shareholders. The subject of conflicts of interest is documented in the Prospectus and the Management Company's policy on conflicts of interest is available for inspection on the website:

<https://am.jpmorgan.com/content/dam/jpm-am-aem/emea/lu/en/communications/lux-communication/conflicts-of-interest-ce-en.pdf>

The Board can take independent professional advice if necessary and at the Fund's expense.

Board Composition

The Board is chaired by Mr. Saunders and consists of five Independent Non-Executive Directors, one Non-Executive Director and two Executive Directors.

The Board defines an Executive Director as someone who is employed by JPMorgan Chase & Co or any of its affiliates, a Non-Executive Director as someone who has a business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates, and an Independent Non-Executive Director as someone who is free of any business, family or other relationship with the Fund or JPMorgan Chase & Co or any of its affiliates. All Board meetings require a majority of Non-Executive Directors to be in attendance.

In appointing a Director the Board takes into account the relative mix and composition of the Board, which as a whole has a breadth of investment knowledge, financial skills, as well as legal and other experience relevant to the Fund's business.

The Board does not limit the number of years of Directors' service and it does take into account the nature and requirements of the fund industry and of the Fund's business when making recommendation to shareholders that Directors be elected. The terms of each Director's appointment are set out in a contract for services and these are available at the Fund's registered office for inspection.

At the Annual General Meeting of the Fund on 20 November 2019, the shareholders appointed Martin Porter to the board as an Independent Non-Executive Director.

At the forthcoming Annual General Meeting shareholders are being asked to consider appointing Marion Mulvey to the Board as an Executive Director.

Marion Mulvey is Co-CAO and Head of Asset Management Operations in EMEA for J.P. Morgan Asset Management.

Marion joined J.P. Morgan in 2014 from Citigroup, where her last role was as Product Head for the Alternatives Fund Administration business in EMEA. She spent 13 years with that business in total and also held a number of senior operational roles including Head of Fund Accounting in EMEA. Previously, Marion worked at Salomon Smith Barney for 3 years, managing the European Equity Product Control team.

She trained as a Chartered Accountant holding roles both in private practice and as an Audit Manager in the financial services audit department at KPMG.

Marion is a Fellow of the Institute of Chartered Accountants in Ireland. She is also a member of the Institute of Directors, holding a Certificate and Diploma in Company Direction.

Induction and Training

All new Directors will receive an induction incorporating relevant information regarding the Fund and their duties and responsibilities as a Director. In addition, the Board takes active steps to keep up to date with developments relevant to the Fund and have ensured that a formal training programme is in place.

Board Evaluation

The Board carries out a biennial review of its performance.

JPMorgan Funds

Board of Directors' Report (continued)

Board Remuneration

The Board believes that the remuneration of its members should reflect the responsibilities and experience of the Board as a whole and be fair and appropriate given the size, complexity and investment objectives of the Fund. The remuneration is reviewed on an annual basis. The Chairman is paid USD 96,393 and the other Directors USD 76,218 for the year ended 30 June 2020 apart from the Executive Directors who have agreed to waive their remuneration. No element of the remuneration paid by the Fund to the Directors is performance related.

Board Meetings and Committees

The Board meets quarterly but if necessary additional meetings will be arranged. Given the scope and nature of the business of the Fund, the Board does not currently consider it necessary to have a formal Audit or Remuneration Committee or indeed any other standing committees. However, this is kept under review. All Board related matters are therefore currently approved by the Board or, where there are specific matters that need further consideration, a Sub-Committee of the Board could be formed for this specific purpose. Such circumstances could be where the Board requests some amendments to the Prospectus and where it is not appropriate to wait till the next quarterly Board meeting for this to be approved. These Sub-Committee meetings are usually formed of a minimum of two Directors.

There were twelve Board meetings held during the year. Four of these were quarterly Board meetings where, amongst other matters, the agenda included those items highlighted under the section above called 'Role and Responsibility of the Board' and eight were ad hoc Board meetings. In addition to the Board meeting where the Auditors present the report on the audit of the Fund accounts, the Non-Executive Directors also meet with them annually without the Executive Directors being in attendance.

Internal Control

Investment management and all administrative services are provided by the Management Company and custody of assets is provided by J.P. Morgan Bank Luxembourg S.A. The Board's system of internal control therefore mainly comprises monitoring the services provided by the Management Company and the Depositary, including the operational and compliance controls established by them to meet the Fund's obligations to shareholders as set out in the Prospectus, Articles of Incorporation as well as all relevant regulations. The Management Company formally reports to the Board on a quarterly basis on the various activities it is responsible for and in addition shall inform the Board without delay of any material administrative or accounting matters.

Corporate Governance and ALFI Code of Conduct

The Board is responsible for ensuring that a high level of corporate governance is met and considers that the Fund has complied with the best practices in the Luxembourg funds industry.

In particular the Board has adopted the ALFI Code of Conduct (the "Code") which sets out principles of good governance. These principles are set out below:

1. The Board should ensure that high standards of corporate governance are applied at all times;
2. The Board should have good professional standing and appropriate experience and to ensure that it is collectively competent to fulfil its responsibilities;
3. The Board should act fairly and independently in the best interests of the investors;
4. The Board should act with due care and diligence in the performance of their duties;
5. The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents;
6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
9. The Board should ensure that shareholder rights are exercised in a considered way and in the best interests of the Fund;
10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects throughout the financial year ended 30 June 2020. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

Proxy Voting Policy

The Board delegates responsibility for proxy voting to the Management Company. The Management Company manages the voting rights of the shares entrusted in a prudent and diligent manner, based exclusively on the reasonable judgement of what will best serve the financial interests of clients. So far as is practicable, the Management Company will vote at all of the meetings called by companies in which they are invested.

A copy of the proxy voting policy is available from the Fund's registered office upon request or on the website:

<https://am.jpmorgan.com/lu/en/asset-management/adv/funds/policies/>

Environmental Social Governance ("ESG")

Certain Sub-Funds of JPMorgan Funds have included ESG as part of their investment policy. Details of these are included within the Prospectus.

Directors and Officers Indemnity Insurance

The Fund's Articles of Incorporation indemnify the Directors against expenses reasonably incurred in connection with any claim against them arising in the course of their duties or responsibilities as long as they have not acted fraudulently or dishonestly. To protect shareholders against any such claim, the Board has taken out Directors and Officers Indemnity Insurance which indemnifies the Directors against certain liabilities arising in the course of their duties and responsibilities but does not cover against any fraudulent or dishonest actions on their part.

Independent Auditor

PricewaterhouseCoopers, Société coopérative, has been the Fund's Auditor since December 1994. The provision of audit services was last put to competitive tender in 2016. The Board reviewed the services of PwC in 2016 and decided that, subject to any other influencing factor, they should continue to be proposed to the Shareholders to be appointed as Auditor.

JPMorgan Funds

Board of Directors' Report (continued)

Annual General Meetings

The next Annual General Meeting of the Fund will be held on 18 November 2020 at the Registered Office of the Fund to consider matters relating to the year ending on 30 June 2020. At this meeting shareholders will be requested to consider the usual matters at such meetings including:

1. The adoption of the financial statements and approval of the allocation of the results;
2. The approval of Directors' fees;
3. The election of certain Directors;
4. The election of the Auditor; and
5. The discharge of Directors duties.

No special business is being proposed by the Board.

Discharge of Directors

One of the resolutions in the AGM is, as required under Luxembourg Law, for shareholders to vote on the discharge of the directors of their duties for the fiscal year in question. This discharge is only valid where the annual accounts contain no omission or false information concealing the real financial situation of the Fund.

Privacy Policy

The Management Company complies with a privacy policy that has been issued by J.P. Morgan Asset Management which can be accessed at www.jpmorgan.com/emea-privacy-policy. This policy was updated to comply with the General Data Protection Regulation.

Significant Events during the Year

a) Sub-Fund launches

The following Sub-Funds were launched during the year:

- JPMorgan Funds - Thematics - Genetic Therapies on 24 October 2019;
- JPMorgan Funds - Global Bond Opportunities Sustainable Fund on 8 November 2019;
- JPMorgan Funds - Emerging Markets Sustainable Equity Fund on 13 November 2019;
- JPMorgan Funds - Europe Sustainable Small Cap Equity Fund on 6 December 2019;
- JPMorgan Funds - China Bond Opportunities Fund on 8 January 2020;
- JPMorgan Funds - Multi-Manager Sustainable Long-Short Fund on 14 February 2020.

b) Sub-Fund liquidations

The following Sub-Funds were liquidated during the year:

- JPMorgan Funds - Global Absolute Return Bond Fund on 22 November 2019;
- JPMorgan Funds - Systematic Alpha Higher Volatility Fund on 27 November 2019;
- JPMorgan Funds - US Corporate Bond Fund on 3 December 2019;
- JPMorgan Funds - Quantitative Flexible Bond Fund on 24 February 2020;
- The Sub-Fund JPMorgan Funds - Indonesia Equity Fund was liquidated on 29 June 2020. Please refer to the Combined Statement of Net Assets.

c) Sub-Fund mergers

The following Sub-Funds were merged during the year:

- JPMorgan Funds - Emerging Markets Diversified Equity Fund into JPMorgan Funds - Emerging Markets Dividend Fund on 24 April 2020;
- JPMorgan Funds - Latin America Corporate Bond Fund into JPMorgan Funds - Emerging Markets Corporate Bond Fund on 24 April 2020.

d) Changes to Sub-Fund benchmarks

With effect 28 October 2019, the following benchmark changes occurred:

JPMorgan Funds - Europe Small Cap Fund changed its benchmark from EMIX Smaller Europe (Inc. UK) Index (Total Return Net) to MSCI Europe Small Cap Index (Total Return Net).

JPMorgan Funds - Taiwan Fund changed its benchmark from Taiwan Stock Exchange Capitalization Weighted Stock Index (TAIEX) (Total Return Gross) to MSCI Taiwan 10/40 Index (Total Return Net).

With effect from 17 January 2020, the benchmark uses of all the Sub-Funds were updated.

With effect from 2 March 2020, the benchmark for JPMorgan Funds - Europe Dynamic Small Cap Fund was changed from EMIX Smaller Europe (Inc. UK) Index (Total Return Net) to MSCI Europe Small Cap Index (Total Return Net).

e) Changes to Sub-Fund investment policy, risk, exposure and global exposure calculation method

With effect from 30 July 2019, the investment policy of JPMorgan Funds - US Opportunistic Long-Short Equity Fund was updated to clarify that the Sub-Fund may be concentrated in a limited number of securities or sectors from time to time. Concentration risk will be also added to the Investment Risks of the Sub-Fund. There will be no change to the risk-return profile of the Sub-Fund.

With effect from 9 October 2019, the investment approach of JPMorgan Funds - Emerging Markets Aggregate Bond Fund was updated to remove flexibility to invest in local currency debt. The Sub-Fund has used this flexibility to a limited extent in the past and there is no intention to use it in the future.

With effect from 9 March 2020, the investment exposure and global exposure calculation method of JPMorgan Funds - Emerging Markets Aggregate Bond Fund was updated as follows:

Old Main Investment Exposure

At least 67% of assets invested, either directly or through derivatives, in debt securities issued or guaranteed by emerging market governments or their agencies; and by companies that are domiciled, or carrying out the main part of their economic activity, in an emerging market country. The Sub-Fund may invest in below investment grade and unrated debt securities. The Investment Manager may take active currency positions to maximise returns. The Sub-Fund may invest in onshore debt securities issued within the PRC through China-Hong Kong Bond Connect.

New Main Investment Exposure

At least 67% of assets invested, either directly or through derivatives, in debt securities issued or guaranteed by emerging market governments or their agencies; and by companies that are domiciled, or carrying out the main part of their economic activity, in an emerging market country. The Sub-Fund may invest in below investment grade and unrated debt securities.

JPMorgan Funds

Board of Directors' Report (continued)

Old Other Investment Exposure

The Sub-Fund may invest up to 10% in convertible securities and up to 10% in contingent convertible bonds and up to 10% in equities, typically as a result of events relating to its debt holdings such as conversions or restructurings.

Old Global Exposure Calculation Method

Relative Value at Risk (VaR)

With effect from 27 April 2020, the investment policy of JPMorgan Funds - US Short Duration Bond Fund was updated to provide the Investment Manager with increased flexibility to invest up to 25% of the Sub-Fund's assets in debt securities issued outside of the US.

f) Fee changes

With effect from 1 October 2019, a fee waiver was implemented to effectively lower the Annual Management & Advisory Fee;

g) Swing Pricing Mechanism

With effect from 17 March 2020 all Sub-Funds in the SICAV for which swing pricing is applied (23 March 2020 for JPMorgan Funds - Managed Reserves Fund and JPMorgan Funds - Sterling Managed Reserves Fund), the swing thresholds (typically 1%) have been reduced to 0% across all relevant Sub-Funds in the event of net redemptions on any given day. This means that swing pricing will be applied each day when there are more outflows than inflows in a relevant Sub-Fund, regardless of the size of these outflows. In the event of net subscriptions (i.e. more inflows than outflows), the usual swing thresholds (typically 1%) will continue to apply.

On 25 March 2020, the SICAV Board has delegated to JPMAME all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances caused by the Covid-19 outbreak. JPMAME will promptly notify the JPMAME Board and the CSSF in the event where swing factors increase beyond 2%. The Shareholders are informed of the above change via a website notification, as permitted by the Prospectus. As of date of this report, no Sub-Fund has applied a swing factor exceeding 2%.

h) P Share Class

P Share Classes in the below Sub-Funds were merged and effectively liquidated as follows:

JPMorgan Funds - US Growth Fund on 21 April 2020;

JPMorgan Funds - Managed Reserves Fund and JPMorgan Funds - US Select Equity Plus Fund on 26 June 2020.

JPMorgan Funds

Board of Directors' Report (continued)

i) Covid-19 Addendum

Beginning in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. There has been a significant correction in the financial markets over the months from February to May. The effects of Covid-19 have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the market.

j) Securities Lending Agreement

A securities lending agreement was signed on 25 June 2020 between the SICAV and the new securities lending agent, J.P.Morgan Bank Luxembourg S.A.. The former securities lending agent was JPMorgan Chase Bank N.A..

Significant Events after the Year-End

a) Investment Policy

With effect from 29 July 2020, the investment policy of JPMorgan Funds - Global Corporate Bond Fund was updated to remove the restriction to invest in global debt securities issued by local governments, and to allow investment in these types of assets up to 5%.

With effect from 29 July 2020, the investment policy of JPMorgan Funds - Global Corporate Bond Duration-Hedged Fund was updated to remove the restriction to invest in global debt securities issued by local governments and to allow investment in these type of assets up to 5%.

b) Changes to expected leverage

With effect from 29 July 2020, JPMorgan Funds - Global Aggregate Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 300% to 400%.

With effect from 29 July 2020, JPMorgan Funds - Sterling Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 10% to 50%.

With effect from 29 July 2020, JPMorgan Funds - Systematic Alpha Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 350% to 500%.

With effect from 21 September 2020, JPMorgan Funds - Diversified Risk Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 150% to 600%.

c) Changes to investment restrictions

With effect from 29 July 2020, JPMorgan Funds - Emerging Markets Local Currency Debt Fund investment restrictions have been updated to reflect that the Investment Manager may hold up to 20% of the Sub-Fund's net assets in securities issued or guaranteed by any one country (including any government body or public or local authority) with a credit rating below investment grade.

d) Integration of Environmental, Social and Governance factors

With effect from 29 July 2020, the following Sub-Funds have been updated to reflect that Environmental, Social and Governance factors are integrated into the investment process;

JPMorgan Funds - America Equity Fund

JPMorgan Funds - Asia Pacific Income Fund

JPMorgan Funds - Brazil Equity Fund

JPMorgan Funds - China A-Share Opportunities Fund

JPMorgan Funds - Diversified Risk Fund

JPMorgan Funds - Emerging Europe Equity Fund

JPMorgan Funds - Emerging Middle East Equity Fund

JPMorgan Funds - Global Convertibles Fund (EUR)

JPMorgan Funds - Global Multi-Strategy Income Fund

JPMorgan Funds - Global Natural Resources Fund

JPMorgan Funds - Global Socially Responsible Fund

JPMorgan Funds - Global Unconstrained Equity Fund

JPMorgan Funds - Korea Equity Fund

JPMorgan Funds - Russia Fund

JPMorgan Funds - Systematic Alpha Fund

JPMorgan Funds - Thematics - Genetic Therapies

JPMorgan Funds - Total Emerging Markets Income Fund

JPMorgan Funds - US Equity All Cap Fund

JPMorgan Funds - US Growth Fund

JPMorgan Funds - US Opportunistic Long-Short Equity Fund

JPMorgan Funds - US Small Cap Growth Fund

JPMorgan Funds - US Smaller Companies Fund

JPMorgan Funds - US Technology Fund

JPMorgan Funds - US Value Fund

e) Prospectus updates

With effect from 29 July 2020, for Sub-Funds which are expected to invest in mortgage-backed securities ("MBS") and/or asset-backed securities ("ABS"), the investment policies have been updated to indicate a percentage of assets which may be invested in these securities. In addition, for those Sub-Funds which are expected to invest 20% or more of their assets in MBS/ABS, the investment policies have been enhanced to include a description of MBS/ABS, underlying assets and any applicable credit quality restrictions. Certain other clarifications of investments in MBS/ABS and covered bonds have been also made for clarity and consistency purposes.

f) Sub-Fund merger

On 16 September 2020, the Board of the Fund resolved to merge JPMorgan Funds - Systematic Alpha Fund into JPMorgan Funds - Diversified Risk Fund subject to CSSF approval.

Board of Directors

Luxembourg, 16 October 2020

Equity

Asia Markets Review

Asian equities experienced a volatile year, but the MSCI Asia ex Japan Index returned 1.7% for the 12 month period. This came against a backdrop of slowing global growth, which was further exacerbated by the Covid-19 pandemic, ongoing geopolitical tensions and unprecedented liquidity and policy supports by central banks and national governments. Performance divergence was large, with Taiwan and China posting strong gains and Japanese equities also providing positive returns, while India and ASEAN markets fell.

Investor optimism over trade negotiations between China and the U.S. faded around middle of 2019 when the U.S. announced another round of tariffs. This and concerns over a slowdown in global growth further added to market pessimism. Yet, the emergence of Phase One trade deal in late 2019 helped equity markets to recoup losses. However, the spread of Covid-19, initially more contained in China, swiftly turned the investor sentiment negative as the corona virus was declared a pandemic. This drove a meaningful risk-off sentiment among investors, as marked by the collapse in 10-year U.S. Treasury bond yields, a strengthening U.S. dollar, a sharp decline in global petroleum prices. Asian equity valuations fell to levels last seen in the 2008-09 global financial crisis.

Fears of a synchronised global recession promoted central banks and national government around the world to unveil a broad range of monetary and fiscal stimulus, including interest rate cuts and additional quota for quantitative easing, to alleviate market stress. Markets began to rebound strongly from the end of March through to June 2020.

By the end of the 12 month period, equities in Taiwan and China outperformed as the pandemic appeared to be relatively under control. The technology, gaming, eCommerce, health care sectors generally performed well. South Korean equity returns were generally flat, amid investor concerns over global growth and slowing exports. Hong Kong markets suffered amid socio-political unrest. India was also under severe economic growth pressure coupled with ongoing investor concerns over its banking sector. ASEAN equity markets performed the worst due to prolonged at-home quarantines. Within Asian equity markets, growth indexes outperformed value and dividend indexes over the 12 month period.

Outlook

Overall, Covid-19 and the related macro-economic environment remains the primary issue for global markets. While cases of the virus seem to be controlled in North Asia and Europe, the U.S., Latin America and parts of South Asia are still seeing increased infection rates.

While equity prices have generally recovered since the first quarter 2020 with the unprecedented policy responses of central banks and national governments, few new support programmes have been announced since then and the economic impact of stimulus efforts will only be seen slowly, leaving financial markets vulnerable to any investor disappointment. However, equity valuations across Asia on a price-to-book ratio remain below long-term averages and historically these levels have been attractive to long term investors.

Global Markets Review

The 12-month period unprecedented in terms of volatility for global equity markets due to the Covid-19 pandemic. Until early 2020, markets rallied on an easing of trade and geopolitical tensions and a rebound in investors' risk appetite. However, the spread of the novel coronavirus quickly snowballed into a pandemic that ground national economies to a halt, prompting record-breaking fiscal and monetary stimulus that eventually helped to stabilise markets.

The MSCI World Index returned 2.84% for the period and the Bloomberg Barclays Multiverse Index returned 3.84%. The MSCI Europe Index declined by 5.5% (in EUR) during the period.

The second half of 2019 saw mixed economic performance, accommodative monetary policy and a flare-up in political and trade tensions that increasingly subsided toward the end of the year. However, stocks rallied in late 2019 on a breakthrough in U.S.-China trade talks and the first phase of a trade deal. In the U.K., the victory of the Conservative Party in the general election lifted investor sentiment on hopes that the Parliamentary deadlock over Brexit would be broken and political stability would emerge.

In the first quarter of 2020, as Covid-19 spread to nearly 200 countries and governments enforced social distancing and/or at-home quarantines, economic activity slowed sharply, and economic growth expectations fell. With a deterioration in the economic landscape, national governments began to take extraordinary measures to counter the damage of pandemic. The U.S. unemployment rate hit a post-WWII high of 14.7% in April. The eurozone's PMI hit a record low of 13.5 in April.

Equity markets saw one of the deepest and fastest sell-offs since the Great Depression of the 1930s. Towards the end of the quarter, markets recovered some of the losses late in the first quarter as the both governments and central banks moved quickly to stabilise financial markets and counter the economic damage from Covid-19 restrictions.

During the second quarter of 2020, global equities witnessed a rally as the growth in Covid-19 infection rates declined in several regions and as strong stimulus measures by governments came into effect. Economic activity rebounded sharply as consumer spending and retail sales in the U.S. and the U.K. increased but remained below pre-pandemic levels.

Although global equities ended the period at a higher level in aggregate, there was a pronounced sector rotation. Crude oil prices plunged to record lows in April 2020 and energy stocks were among the worst performers over the period. Banking stocks slumped amid falling bond yields and regulatory pressure to suspend dividend payments, particularly in Europe. Travel and leisure sector stocks also fell, while retail and real estate sector stocks declined amid uncertainty about the outlook for leases and rents.

Globally, the technology sector rallied strongly as semiconductor equipment companies were able to resolve supply-side constraints and several posted upbeat forecasts for the year. Software developers and eCommerce stocks also rallied.

Outlook

We expect corporate earnings will be appreciably lower in 2020, with the financials and energy sectors especially badly affected. At present, our analysts estimate global corporate earnings in 2020 will decline by more than 20% compared with the previous year. We also expect a significant rebound in earnings in 2021, though we don't expect earnings to revert to pre-pandemic levels.

Against this background, the continued rally in global stock reflects a huge amount of monetary stimulus and a dearth of attractive opportunities. Relative to sovereign bonds and cash, equities still offer attractive medium-term return. We feel, however, that more volatility is likely this year as investors digest the uneven pace of the recovery and there is a risk of resurgence of the Covid-19 outbreak, which we have already seen in parts of the U.S. We will also see how bond investors react to the steep rise in government debt everywhere, and with downward pressure on retail prices we will see whether the threat of deflation returns. Overall, we believe that within the increased valuation spreads between the least expensive and most expensive stocks in global equity markets, there are fertile opportunities for investors add value.

Balanced and Mixed Assets*Balanced and Mixed Asset Markets Review*

Investor optimism over trade negotiations between China and the U.S. faded around middle of 2019 when the U.S. planned a further round of tariffs on Chinese goods. Additional concerns over a slowdown in global economic growth added to investor worries. In December 2019, the emergence of Phase One trade agreement between the U.S. and China bolstered financial markets.

Going into 2020, global financial markets generally performed well amid supportive monetary policies and expectations that economic growth momentum was returning. However, the outbreak of Covid-19, initially more contained in China, swiftly turned investor sentiment negative when the virus became a pandemic. This led to the collapse in yields on the benchmark 10-year U.S. Treasury bond, a strengthening U.S. dollar and a record decline in global petroleum prices. Asian equity valuations fell to levels last seen in the 2008 global financial crisis.

Central banks and governments across the world launched stimulus packages, including fiscal aid programmes, further interest rate cuts and new or extended quantitative easing programmes. In response, financial markets started to rebound from March through to the end of June 2020.

Within fixed income markets, the JPMorgan Asia Credit Index returned 5.4% for the year, with investment grade bonds generally outperforming high yield bonds.

Outlook

The full economic impact of central bank and government efforts will only be seen slowly and over the past few months, not many new monetary or fiscal support packages have been announced. Financial markets have largely rebounded on investor hopes that fiscal and monetary policy will be successful, which may leave markets vulnerable to investor disappointment.

Generally, we have a bias toward equities and expect them to provide better returns relative to fixed income. Within equities, we maintain a balanced position with defensive sectors and quality franchises providing downside protection and value cyclicals offering upside participation. Within fixed income, economic risks may be fading, but political risks are beginning to rise. Given investor concerns about a global recession other impacts from the pandemic, we prefer high quality bonds from issuers that have the balance sheets able to weather a growth shock.

Convertibles and Fund of Funds*Market Review*

In continental Europe, Australasia and parts of Asia, including China, new Covid-19 infections had fallen to low levels and economies began to reopen by the end of the June 2020. In the U.K., new infections also continued to fall, albeit not to as low levels as in continental Europe. In the U.S., the number of new infections began rising again and select emerging market nations, including India and much of Latin America, had difficulty getting the virus under control.

Since national economies started to reopen, economic data has shown signs of a sharp rebound, with the speed and magnitude of the bounce back a clear positive signal for investors. The other positive signal was that central banks globally have made clear that they stand willing to use their full fire power to keep government and corporate borrowing costs low.

In the U.S., household incomes had been supported by stimulus payments and unusually generous unemployment benefits, which expired at the end of July 2020. By the end of the 12 month period, there had been a re-acceleration of new cases of Covid-19 in several large U.S. states.

The European Union took steps towards reducing the risk of a politically induced re-run of the European sovereign debt crisis. The European Central Bank (ECB) exceeded investor expectations as it increased the size of its Pandemic Emergency Purchase Programme (PEPP) by 600 billion euros in June 2020 and pushed out the horizon PEPP asset purchases to the middle of next year. The ECB also committed to maintaining the size of its PEPP holdings until at least the end of 2022. The increase in the size and length of emergency asset purchases highlighted the ECB's determination to strengthen the economic recovery.

In the U.K., the government announced that companies would be required to contribute to the cost of a jobs furlough programme, and that the programme would expire at the end of October. Meanwhile, the Bank of England increased the target of its asset purchase programme to 300 billion British pounds. The decision sent a clear signal to investors that the Bank of England stands ready to absorb upcoming issuance of U.K. bonds, and in doing so will keep the government's borrowing costs low.

In Japan, the composite economic survey data bounced back in June, driven by a surge in the service sector activity index, even as the manufacturing sector remained lacklustre. On monetary policy front, the Bank of Japan held interest rates at accommodative levels and indicated that it could continue credit easing measures beyond March 2021 and stressed its willingness to adopt additional measures.

Outlook

We believe the enormous scale of policy response to the pandemic should spark a robust bounce back in economic growth, which will be supportive for risk assets. Central banks have made clear that they stand willing to keep government and corporate borrowing costs low. Against this backdrop, we expect above-trend growth in global gross domestic product (GDP) and we believe GDP bottomed out the second quarter of 2020.

A key risk remains that a potential second wave of Covid-19 infections could trigger a return to shutdowns in large sectors of national economies. Political risks that continue to unsettle investors include upcoming U.S. elections, rising tensions between China and the U.S. and EU, and unresolved details of Brexit. Going into the second half the year, our largest position is in the European periphery due to our expectation of yield spread compression given the policy support from European Central Bank and European Union. We continue to hold a diversified range of country exposures and allocation to high quality agency bonds for spread exposure. We have a bias toward longer duration as a risk hedge.

Bonds*Emerging Markets Review*

Emerging Market debt markets have been volatile in 2020 due to the Covid-19 pandemic, with credit spreads widening to levels last seen around the 2008-2009 global financial crisis. While emerging markets debt continued to recover from the lows in March 2020, investors remained concerned about a potential second wave of infections in certain regions and geopolitical tensions. Although economic data appeared to indicate that the global economy bottomed out in April, the subsequent recovery was expected to be very slow.

The EMBI Global Diversified Index spreads finished at 474 basis points (bps) at 30 June 2020. The index's total return for the 12 month period was 0.46%, with return from the investment grade component at 8.32% effectively cancelling out the -8.15% loss in the high yield component. Emerging Markets local currency returned -2.82% (USD unhedged) for the 12 month period, against a stronger U.S. dollar. Emerging Markets corporate debt was the outperformer, returning 3.74%, primarily driven by investment grade debt.

Central banks and governments continued to cushion the blow to the global economy and markets from the pandemic, and government bond yields remained very low as central banks maintained easy monetary policy. From an emerging markets perspective, a majority of central banks continued to keep financial conditions accommodative, with some employing or extending quantitative easing (QE) programmes.

In terms of economic data, there was a continued dispersion in data based on the impact from Covid-19. Recent data from parts of Asia (China, Korea, Vietnam and Taiwan) and emerging market nations in Europe (notably Poland), where coronavirus outbreaks appeared to be under control, have been stronger than expected. In contrast, activity was slower to recover in countries where new infections continued to rise sharply, including India, Mexico and Chile.

In China, macroeconomic data confirmed further economic recovery, as production activity had largely normalised, and demand conditions were gradually restored. China's National Bureau of Statistics reported its manufacturing PMI rose to 50.9 in June, with notable uptick of the export-order component. Overall, despite geopolitical tensions and the Covid-19 pandemic, investor sentiment appeared positive at the end of the 12 month period.

Outlook

We expect emerging markets economic growth to recover and our base case suggests the potential for 11-12% returns in emerging market debt in 2020. We now assign a higher probability for global growth to bottom out and gradually transition to a shallow recovery. We see only a moderate risk of inflation, as activity and commodity prices remain low. In this core scenario, we expect central banks to remain accommodative, which we think will support emerging market assets.

Key risks, in our view, include a longer recovery from the pandemic, or a second wave of infections, which would lengthen the economic slowdown. Inflation and intensifying trade tensions with the U.S. are other risks we are watching closely. We believe most emerging markets will manage to weather the large shocks presented by 2020, though some higher-yielding countries could face challenges if a downturn persists longer than expected. At the country level, differentiation in policy sustainability will remain a key driver of performance, helped further by a gradual recovery of commodity prices.

Europe Markets Review

European high yield debt generally underperformed in 2020, which detracted from performance for the 12 month period. The ICE BofA Euro Developed Markets Non-Financials High Yield Constrained Index returned -2.70% for the period. At 30 June 2020, the Index's option-adjusted spread was 151bps wider at 531bps, while its yield-to-worst ended 154bps higher at 4.75%.

While the high yield bond market finished 2019 on a strong note as investor appetite for risk assets increased following a Phase One trade agreement between the U.S. and China, the first quarter of 2020 was one of heightened volatility. Investors across markets were grappling with the potential economic impact of the Covid-19 pandemic and a dramatic change in the fundamentals of the global petroleum market. These shocks combined to upend markets, resulting in very high volatility, with prices for risk assets, including high yield bonds, falling dramatically.

The high yield market rebounded strongly in the final week of the March 2020 as central banks and national governments unleashed unprecedented monetary and fiscal policy responses to the pandemic. This rally continued into early June, as gradual re-opening of economies and business activity, increased investor optimism that the global economy had bottomed out and would continue to recover.

Outlook

Despite the unprecedented scale and scope of rating agency downgrades since March, the weighted average credit quality of the European high yield market has barely changed. This is due to the number of former investment grade issuers that have entered the high yield benchmark index as sizeable BB-rated issues, such that overall benchmark quality remained BB-. Fundamentals across most sectors can only improve in the short term as businesses re-open and normal economic activity resumes.

However, putting aside the threat of a resurgence of Covid-19 infections, the outlook beyond the third quarter is far less certain. We struggle to see a scenario other than one in which unemployment is higher and investment lower as companies look to re-adjust their capacity and reduce their debt levels. Despite our caution, we do think that default rates will be lower than where our expectations were at the end of the first quarter. This is due to a combination of wide-ranging state backing for the private sector through the likes of wage furlough programmes and state guaranteed liquidity provision. However, central banks' rapid and aggressive suppression of risk premiums has re-opened primary corporate debt markets such that even some of the worst affected sectors have been able to access liquidity through the bond market to ease them through the Covid-19 demand shock.

After European high yield posted an 11.22% return in the second quarter of 2020, its best quarterly return since the second quarter of 2009, it is highly unlikely that the remainder of the year can come anywhere close to matching that.

While still constructive on the longer-term outlook for high yield returns, we believe there is less value in dropping down in rating or in capital structure. We are concerned that the hand of the central banks in driving down volatility can lead to bouts of over-valuation in the context of fundamental corporate risk. Caught between the munificence of central banks and the quick erosion of risk premiums, we have tended toward a neutral position on beta. We think that any windows of volatility are likely to provide a better opportunity in which to increase risk.

Global Markets Review

The year 2019 saw more than 3,000 basis points of gross interest rate cuts in response to softening economic data, which was largely the result of a persistent trade war between the U.S. and China. Softer economic data and heightened uncertainty, along with the accommodative stances from leading central banks, led to lower core bond yields. U.S. Treasury yields ended 2019 at 1.92%, down from 2.69% at the start of the year and having reached a low of 1.46% in September at the height of the trade tensions. German Bunds yields plunged into negative territory over the year, with other government bond yields following. This prevalence of low and negative core rates led investors to a global hunt for yield, and this, along with accommodative central banks, provided support for risk assets. As such, all fixed income markets performed well in 2019, with high yield, for example, returning over 13% and emerging market debt (USD sovereigns) returning as much as 15%.

An optimistic start to 2020 soon gave way to the spread of Covid-19 and the closure of large sectors of the national economies across the globe. A double-digit percentage drop in gross domestic product (GDP) and an intense market sell-off prompted an unprecedented reaction from central banks, which cut interest rates and pledged to buy vast quantities of government and corporate bonds. At the same time, the fiscal response to the economic shock was extensive, with governments worldwide enacting measures to support businesses and individuals.

Fixed income market returns recovered strongly in the wake of central bank and government actions, with investment grade credit spreads retracing 80% from their widest point in March. High yield spreads have recovered somewhat. At the end of June 2020, despite some lingering investor concerns about U.S.-China trade relations and the prospect of increasing Covid-19 infections in the U.S. and elsewhere, investors generally remained optimistic, encouraged by the fact that many national economies appeared to be reopening after a prolonged shutdown.

Outlook

As national economies continue to reopen, above-trend growth has become our base case. We believe global GDP bottomed out in the second quarter of 2020. We expect current policy responses to spark U.S. double-digit GDP growth in second half of 2020 and 3%-5% growth in 2021. We also expect a robust bounce back in Europe and emerging markets and we expect central banks to keep interest rates at their lower ranges for several years. Any further weakness should be met with additional policy response in an election year, however we forecast double-digit U.S. unemployment into 2021. We are

diversifying our higher quality bias and extending further out on the credit spectrum, and rotating into certain sectors, including bank capital. We continue to find high quality securitised credit attractive and are returning to emerging market local and external debt.

U.S. Markets Review

The period began with a slowdown in global economic data leading to muted investment grade corporate credit spread moves during the third quarter of 2019. The U.S.-China trade war still dominated news reports, but tensions were softening.

The fourth quarter of 2019 was a strong period for credit markets, largely due to accommodative central bank policies. While the U.S. Federal Reserve (the "Fed") cut its target rate by 25bps in October, the third reduction in rates in 2019. Credit spreads tightened in October on the back of investor expectations that the U.S. and China would be able to reach an interim trade agreement. This sentiment continued into November and a Phase One trade deal was reached in December.

The first quarter of 2020 was a challenging time for U.S. credit markets with investor concerns about the Covid-19 pandemic leading a broad market sell-off. As the coronavirus continued to spread outside China, we began to see mass lockdowns with many countries coming to a standstill, sparking global recessionary fears. To tackle the slowdown in growth, governments and central banks globally delivered sizeable stimulus packages and quantitative easing programmes. The Fed resorted to two intra-meeting interest rate cuts, totalling 150bps.

The second quarter of 2020 was a strong one for credit as central banks and governments provided sizeable stimulus and quantitative easing and national economies started to reopen. While the Fed left interest rates unchanged over the quarter, it indicated its willingness to continue to support markets and the economy as needed.

Outlook

While credit spreads have tightened dramatically relative to the wide spreads seen in March 2020, the economic outlook is complicated by the possibility of a second wave of Covid-19 infections and the potential for governments to re-establish stringent quarantine restrictions. Corporate financial health remains challenged, despite significant central bank support, with leverage continuing to rise. Leverage metrics are suffering from a combination of falling earnings growth related to Covid-19 and an increase in debt growth.

The risk of credit downgrades remains elevated. However, the scale of downgrades is dependent on the length of the economic downturn, the aggressiveness of rating agencies, and the degree of continued fiscal support among policymakers. While monetary and fiscal policy support has been significant, it is, in its current form, unlikely to be sizeable enough to avoid long term downgrades should the economic slowdown continue for an extended period.

We expect demand for investment grade corporate bonds to continue, though perhaps at a slower pace. The attractive hedged U.S. corporate yield for both Japanese and European investors supports foreign demand for U.S. markets. Further, central bank purchasing programmes should provide a backstop to markets should demand weaken significantly. While supply was unprecedentedly heavy in the second quarter of 2020, we expect issuance to slow in the second half of the year.

Given the low yields for government bonds globally, the high quality bias and positive yield of the corporate market means that investment grade corporate bonds remain relatively attractive. However, some caution is warranted due to continued uncertainty around Covid-19, the level of fiscal support going forward, and elevated geopolitical risks ahead of Brexit deadlines and the U.S. presidential election in November 2020. While we continue to prefer defensive sectors, like utilities and consumer non-cyclicals, we plan to add to high quality bonds across the market where we see attractive spread opportunities.

Money Markets

Money Market Review

The key story that has gripped global markets over the past 12 months has been the Covid-19 pandemic and its economic effects, and more recently, the powerful global response from central banks and governments.

In the third quarter of 2019, the slowdown in economic growth and heightened trade tensions between the U.S. and China weighed on investor sentiment. These concerns triggered a monetary response both in Europe and the U.S., with the U.S. Federal Reserve (the "Fed") cutting benchmark interest rates in July and September. Subsequently, government bond yields rallied and equity markets performed well. Trade tensions eased in fourth quarter of 2020 leading up to a Phase One trade agreement between the U.S. and China. Moreover, global macroeconomic data stabilised, particularly in the U.S. where jobs gains showed improvement. Front-end government bond yields continued to fall in the final months of 2019.

The first quarter of 2020 took an unexpected turn, as the spread of Covid-19 gripped markets and brought certain areas of the global economy to a halt in March. Equity markets entered bear market territory and credit markets were hurt by a potential liquidity crisis. U.S. dollar investment grade credit spreads ended the quarter 240 bps wider on the ICE BAML 1-5 Year Corporate Index as corporate credit sold off. The 3-month EURIBOR-OIS spread widened out to 30 bps.

Leading central banks reacted aggressively. The Fed slashed interest rates by 100 bps and supported market liquidity and the flow of credit via the creation of a range of lending and asset purchasing programmes. The European Central Bank cut its deposit rate by 10 bps and initiated its own range of programmes, including the 750 billion euro Pandemic Emergency Purchase Programme and the Corporate Sector Purchase Programme.

The monetary stimulus provided technical support to markets in the second quarter of 2020 and select economies began to ease lockdown restrictions. Despite record unemployment and economists' expectations of a deep economic recession, financial markets rallied through to June 2020 and investment grade credit spreads tightening substantially, ending the 12 month period closing not far from levels seen before the pandemic began. Notably, investor appetite for equity waned in late June, as Covid-19 cases in certain parts of the developed world - particularly in the U.S. - started to rise and some social restrictions were re-imposed.

Outlook

The range of possible economic scenarios over the next year is extremely wide and made more challenging as asset prices appear to have become somewhat less connected from the economy amid financial market reliance on central bank stimulus. We expect central bank policy rates in the leading global economies are likely to remain at current levels for three-to-five years, depending on individual economy.

We believe that in these volatile and unpredictable times a conservative approach to credit risk can enable us to deliver investments that protect capital, provide liquidity and generate returns.

Multi-Manager

Market Review

Global equity markets produced positive returns for the 12 months ended 30 June 2020, rebounding from one of the sharpest selloffs in history due to the Covid-19 pandemic fears and the effects of global lockdowns on the economy. Decisive intervention by central banks helped calm markets and government action supported a recovery in equity markets. The MSCI All-Country World Index returned 1.08% for the period. Global bond markets rose strongly on the back of historically low or zero interest rates, with the Bloomberg Barclays U.S. Aggregate Index returning 4.22% over the period. Despite the positive numbers, markets exhibited extreme volatility and both equity and credit markets suffered high double-digit losses in March 2020.

Liquid alternative investments protected well in this environment across strategies with hedges and shorts generating strong returns. In addition, the strong correction in financial markets created increased opportunities across all strategies: long/short strategies benefitted from wider dispersion across sectors and individual stocks; relative value strategies benefitted from mispricing among securities; macro strategies benefitted from market uncertainty and uneven reactions to the pandemic among different countries; and credit benefitted from extreme dislocations by as some investors were forced to sell holdings.

Outlook

The outlook for multi-manager alternative strategies remains strong as dispersion across securities is likely offering potential for strong alpha returns from investment managers. In addition, increased market volatility should be supportive of these strategies as investment managers across strategies are able to find opportunities both long and short. Overall, we expect these strategies to continue to benefit from a more fundamental market coupled with increased investor uncertainty.

Audit Report

To the Shareholders of

JPMorgan Funds

Our opinion

In our opinion, the accompanying Financial Statements give a true and fair view of the financial position of JPMorgan Funds (the "Fund") and of each of its Sub-Funds as at 30 June 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the Financial Statements.

What we have audited

The Fund's Financial Statements comprise :

- the Combined Statement of Net Assets as at 30 June 2020;
 - the Schedule of Investments as at 30 June 2020;
 - the Combined Statement of Operations and Changes in Net Assets for the year then ended; and
 - the Notes to the Financial Statements, which include a summary of significant accounting policies.
-

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the Financial Statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the Financial Statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the Financial Statements and our audit report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the Financial Statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the Financial Statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of Financial Statements that are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its Sub-Funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the Financial Statements

The objectives of our audit are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit.

We also:

- identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund’s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund’s or any of its Sub-Funds’ ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its Sub-Funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

| Performance fees | 5,946,699 |
| Bank and other interest expenses | 2,510,601 |
| Other expenses ** | 22,125,368 |
| Less: Fee waiver *** | (47,873,742) |
| Total expenses | 1,131,220,726 |
| Net investment income/(loss) | 1,546,734,865 |
| Net realised gain/(loss) on: | |
| Sale of investments | 879,779,038 |
| To be announced contracts | 5,013,982 |
| Options contracts | 14,801,793 |
| Financial futures contracts | 72,610,788 |
| Forward currency exchange contracts | (530,609,749) |
| Swaps contracts | 147,521,981 |
| Currency exchange | 63,320,426 |
| Net realised gain/(loss) for the year | 652,438,259 |
| Net change in unrealised appreciation/(depreciation) on: | |
| Investments | (113,463,162) |
| To be announced contracts | 3,317,208 |
| Options contracts | 10,514,899 |
| Financial futures contracts | 3,977,546 |
| Forward currency exchange contracts | (116,240,144) |
| Swaps contracts | (128,219,647) |
| Currency exchange | (3,171,252) |
| Net change in unrealised appreciation/(depreciation) for the year | (343,284,552) |
| Increase/(decrease) in net assets as a result of operations | 1,855,888,572 |
| Subscriptions | 72,614,713,777 |
| Redemptions | (64,735,925,883) |
| Increase/(decrease) in net assets as a result of movements in share capital | 7,878,787,894 |
| Dividend distributions | (709,815,123) |
| Net assets at the end of the year | 113,794,916,392 |

* The opening balance was combined using the foreign exchange rates as at 30 June 2020. The same net assets when combined using the foreign exchange rates ruling as at 30 June 2019 reflected a figure of USD 105,144,442,810.

** Other expenses are principally comprised of Directors' fees, audit and tax related fees and expenses, registration, publication, mailing, printing, legal and marketing expenses.

*** Please refer to Note 4a), 4b), 4d) and 4e). To the extent that actual operating costs exceed the capped percentage, the amount borne by the Management Company will be separately disclosed as a "Fee Waiver" in the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets.

The accompanying notes form an integral part of these Financial Statements.

(13) This Sub-Fund was liquidated on 27 November 2019.

* Share Class inactive as at the end of the year.

1. Organisation

JPMorgan Funds (the "Fund" or the "SICAV") is an investment company incorporated on 14 April 1969 under the name Multi-Trust Fund S.A.. The name of the SICAV was changed to Fleming International Fund on 3 July 1984, to Fleming Flagship Fund on 19 October 1988, to Fleming Funds on 2 June 2000, to JPMorgan Fleming Funds on 19 November 2001 and then to JPMorgan Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d'Investissement à Capital Variable (SICAV). As at 30 June 2020, it is comprised of 101 Sub-Funds, each relating to a separate investment portfolio consisting of securities, cash and other instruments.

JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 8478.

Each Sub-Fund may contain A, C, C2, D, F, I, I2, J, S1, S2, T, V, X and Y Share Classes. These Share Classes may have differing minimum subscription amounts, minimum holding amounts, currency and/or eligibility requirements, fees and expenses, and dividend policies applicable to them. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of "(perf)" in the name of the Share Class. Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations (under Luxembourg GAAP) relating to Undertakings for Collective Investment under the going concern basis of accounting.

a) Investment Valuation

For all Sub-Funds, except Money Market Funds, transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors. As at 30 June 2020, securities which were fair valued are identified with an asterisk (*) in the Schedule of Investments.

Shares or Units in UCITS or other UCIs are valued at the latest available price or net asset value, as reported or provided by such funds or their agents.

Liquid assets and money market instruments may be valued at nominal values plus any accrued interest or on an amortised cost basis.

Under a Variable NAV Sub-Fund (VNAV), all investments are valued at the latest available price prevailing on the valuation date.

JPMorgan Funds - EUR Money Market VNAV Fund and JPMorgan Funds - USD Money Market VNAV Fund qualify as Variable Net Asset Value Money Market Fund ("VNAV MMF") under the Money Market Fund regulation (Regulation (EU) 2017/1131).

The assets of VNAV MMF are valued by using mark-to-market prices whenever possible. Where use of mark-to-market prices is not possible or the market data are not of sufficient quality, assets of VNAV MMF are valued conservatively by using mark-to-model. The model accurately estimates the value by considering the up-to-date factors as trading volume, issue size, market risk, interest rate risk and credit risk of each concerned assets.

For the Money Market Funds (MMFs), securitisations, Asset-Backed Commercial Papers and money market instruments are valued at mark-to-market. Where the value of the assets of the Sub-Funds cannot be calculated following the mark-to-market; a) shares or units in MMFs shall be valued at their last available net asset value as reported by such MMFs; b) the value of any cash on hand or on deposit and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined conservatively using mark to model.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 30 June 2020. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates known at the time of calculation.

In managing the daily priced funds, the Board's principle is to ensure that portfolios are appropriately valued to give equal treatment to Shareholders and in this context the Management Company has implemented a Fair Value Committee to address any potential valuation concerns. In line with this, no adjustments were made on 30 June 2020 as the portfolio value at the valuation point represents the same value since closure of the portfolios' relevant underlying markets.

b) Swing Pricing Adjustment

To protect the interests of Shareholders, a Sub-Fund's NAV may be adjusted to compensate for dilutions that can arise in connection with large flows of cash into or out of a Sub-Fund.

These adjustments are normally applied on any Valuation Day when the total volume of trading in a Sub-Fund's Shares (meaning both subscriptions and redemptions) exceeds a certain threshold. The adjustments will seek to reflect the anticipated prices at which the Sub-Fund will be buying and selling assets, as well as estimated transaction costs. The NAV will be adjusted upward when there are large cash net inflows into the Sub-Fund and downward when there are net large outflows. Until 25 March 2020, for any given Valuation Day, the adjustment would never be larger than 2% of what the NAV would otherwise be. On 25 March 2020, the SICAV Board has delegated to JPMAME all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances caused by the Covid-19 outbreak. JPMAME will promptly notify the JPMAME Board and the CSSF in the event where swing factors increase beyond 2% (See Note 18g). During the period, no Sub-Fund has applied a swing factor exceeding 2%. The swing factors typically include the estimated dealing costs, stamp duty and other taxes and market bid/offer spreads. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The Management Company makes, and periodically reviews, the operational decisions about swing pricing, including the thresholds that trigger it, the extent of the adjustment in each case, and which Sub-Funds will and will not be subject to swing pricing at any given time.

The official Net Asset Value per Share as at year end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

During the year, the swing pricing mechanism was applied across all Sub-Funds except for JPMorgan Funds - Multi-Manager Sustainable Long-Short Fund due to net flows not reaching the swing threshold and JPMorgan Funds - EUR Money Market VNAV Fund, JPMorgan Funds - Global Multi-Strategy Income Fund and JPMorgan Funds - USD Money Market VNAV Fund, due to Prospectus restriction.

As at year end, the Swing Pricing adjustments have been applied to the following Sub-Funds: JPMorgan Funds - China A-Share Opportunities Fund, JPMorgan Funds - Greater China Fund, JPMorgan Funds - Taiwan Fund, JPMorgan Funds - Emerging Markets Aggregate Bond Fund, JPMorgan Funds - Euro Corporate Bond Fund, JPMorgan Funds - Europe High Yield Short Duration Bond Fund and JPMorgan Funds - Global Government Bond Fund.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

Similarly, in order to protect the interests of Shareholders in a Sub-Fund that is being merged, the Management Company may adjust the final Net Asset Value per Share of the merging Sub-Fund, or make other appropriate adjustments in order to neutralise for the Sub-Fund being merged, the impact of any pricing adjustment made through the swing pricing mechanism in the absorbing Sub-Fund as a result of cash inflows or outflows in the absorbing Sub-Fund on the merger date.

The Management Company may consider it appropriate not to apply the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If a decision is taken in relation to a Sub-Fund the Management Company will pay the dealing and other costs resulting from securities trades to avoid the Sub-Fund suffering dilution of the net asset value. Where this happens shareholders will subscribe or redeem at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied.

c) Realised and Unrealised Gains or Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains or losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains or losses on investments. Unrealised gains or losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains or losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains or losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains or losses between trade date and settlement date on securities transactions and forward currency exchange contracts; and (iii) gains or losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received.

The resulting gains or losses on translation are included in "Net realised gain/(loss) on currency exchange" in the Combined Statement of Operations and Changes in Net Assets.

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Forward currency exchange contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Unrealised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net realised gain/(loss) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Unrealised gain/(loss) on financial futures contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net change in unrealised appreciation/(depreciation) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Option contracts purchased are recorded as investments; option contracts written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying financial futures contracts.

The market values are recorded under "Options purchased/written contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net change in unrealised appreciation/(depreciation) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets.

i) To Be Announced Securities ("TBA")

TBAs are related to mortgage backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

The Sub-Funds had TBA Dollar Rolls outstanding as at 30 June 2020, which are included in "Investment in to be announced contracts at market value", "Receivables on sale of to be announced contracts" and "Payables on purchase of to be announced contracts" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on To be announced contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on To be announced contracts" in the Combined Statement of Operations and Changes in Net Assets.

j) Interest Rate Swap Contracts

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The interest on interest rate swap contracts are recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

k) Total Return Swap Contracts

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, basket of securities, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A total return swap contract will exchange the total performance on a specific basket of securities, selected by the Investment Manager against a reference rate plus a spread. The total performance includes interest, dividends, gains or losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

l) Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

m) Commodity Index Swap Contracts

A commodity index swap contract is a bilateral agreement in which each of the parties agree to exchange the total return of a specified commodity index against money market rate plus fees.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

n) Inflation Rate Swap Contracts

An inflation rate swap contract is a bilateral agreement in which each of the parties agrees to exchange a predetermined fixed rate for an inflation-linked payment based on a notional amount that serves as a computation basis and that is usually not exchanged until the end of the term. Inflation rate swap contracts are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The income from inflation rate swap contracts is recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

o) Consolidation of Mauritian Subsidiary

All income, expenses, receivables, payables and investments of JPMorgan SICAV Investment Company (Mauritius) Limited (the "Subsidiary"), a wholly-owned subsidiary of JPMorgan Funds - India Fund, are consolidated into the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets of JPMorgan Funds - India Fund. Securities owned by the Subsidiary are individually disclosed in the Schedule of Investments of JPMorgan Funds - India Fund. Intercompany balances are eliminated on consolidation.

The use of the Mauritius Subsidiary and the tax treatment it is afforded, is based on the law and practice currently in force in the relevant countries, as understood by the Board of Directors. It is subject to any future changes and such changes may adversely affect the returns of the Sub-Fund. This includes any circumstances where the India/Mauritius Double Taxation Treaty may not be applied or ceases to be applied, resulting from, inter alia, any ruling by the Indian tax authorities. Should the treaty not be applied, or cease to be applied, interest on securities listed on an Indian stock exchange would be subject to tax at a maximum rate of 20%. Capital gains on disposal of such investments would be subject to tax at rates of 0% to 15% (plus surcharge and education tax) in respect of listed securities depending on the length of time the relevant investment has been held. The Mauritius Subsidiary is subject to Corporate Income Tax of 15% (plus surcharge and education tax) based on the law and practice currently in force in Mauritius.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

3. Reference Currency and Exchange Rates

The reference currency of the SICAV as reflected in the combined statements is USD.

The principal exchange rates applied for the year ended 30 June 2020 are the latest exchange rates known at the time of the NAV calculation:

| | | | | | |
|---------|-------------|---------|--------------|---------|------------|
| 1 USD = | 1.4558 AUD | 1 USD = | 0.8922 EUR | 1 USD = | 9.7066 NOK |
| 1 USD = | 1.3672 CAD | 1 USD = | 0.8128 GBP | 1 USD = | 1.5602 NZD |
| 1 USD = | 0.9497 CHF | 1 USD = | 7.7504 HKD | 1 USD = | 3.9659 PLN |
| 1 USD = | 7.0717 CNH | 1 USD = | 317.0300 HUF | 1 USD = | 9.3481 SEK |
| 1 USD = | 23.8352 CZK | 1 USD = | 107.6810 JPY | 1 USD = | 1.3962 SGD |

4. Fees and Expenses

a) Capped Expense Ratio

The maximum total fees and expenses to be borne by shareholders on a Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise the Management and Advisory Fees, Sub-Investment Manager Fee, Distribution Fees and other Operating and Administrative Expenses; it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in Appendix 1.

b) Management and Advisory Fees

The SICAV pays to the Management Company a management fee calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management and Advisory Fee"). The Management and Advisory Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by any affiliate of JPMorgan Chase & Co., double-charging of management fees will either be avoided or rebated. However, if the underlying investment charges a higher management fee, the difference may be charged to the investing Sub-Fund. If the underlying affiliate undertaking combines management and other fees and charges into a single total expense ratio, such as in exchange traded funds, the whole total expense ratio will be waived. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Management Company can vary the management and advisory fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum. For X and Y Share Classes, this fee is not charged at the Share Class level; instead, the applicable JPMorgan Chase & Co. entity collects a fee for these services directly from the Shareholder.

For P Share Classes, the actual fee charged may be lower than that stated in the Prospectus as J.P. Morgan Bank Luxembourg S.A., London Branch charges their clients a separate and additional fee. As at the year end, there is no active P Share Class.

c) Sub-Investment Manager fee

For Multi-Manager Sub-Funds, in addition to the annual management and advisory fee, there is a Sub-Investment Management fee. This fee goes to pay the Sub-Investment Managers who handle the day-to-day management of their assigned portions of the Sub-Fund portfolio. Where a Sub-Fund invests in Undertakings managed by investment managers which are not members of JPMorgan Chase & Co. group, the Management and Advisory Fee, as specified in the Prospectus, may be charged regardless of any fees reflected in the price of the shares or units of the Undertakings.

d) Distribution Fees

The Management Company typically uses some or all of this fee to compensate Distributors for their services in connection with marketing and distributing the D and T Share Classes. The Management Company can vary this fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum.

e) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees and other expenses incurred in the operation and administration of the SICAV from time to time. This fee is capped for each Share Class and will not exceed the amount stated in Sub-Fund Descriptions section of the Prospectus. The Management Company will bear any operating and administrative expenses that exceed the maximum rate specified.

Where a Sub-Fund invests primarily in UCITS and other UCIs managed by any affiliate of JPMorgan Chase & Co. and where specifically stated for a Sub-Fund in Sub-Fund Descriptions section of the Prospectus, double-charging of operating and administrative expenses will be avoided by a rebate to the Sub-Fund of the operating and administrative expenses (or equivalent) charged to the underlying UCITS or other UCIs. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Operating and Administrative Expenses cover:

i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.15% per annum, except for JPMorgan Funds - Global Research Enhanced Index Equity Fund and JPMorgan Funds - US Research Enhanced Index Equity Fund where it will not exceed 0.05% per annum.

ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

f) Performance Fees

As set out in the Prospectus, the Management Company is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes payable to the Management Company on the last Dealing Day of the Financial Year, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the whole or part of the Performance Fee from the Management Company.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management and Advisory Fee, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

Claw-Back mechanism

The Claw-Back mechanism may accrue a Performance Fee where there is negative return, provided that the performance exceeds the Performance Fee Benchmark return since the last time a Performance Fee was paid.

High Water Mark Method

The High Water Mark mechanism introduces an additional requirement that a Performance Fee may only be accrued where the Net Asset Value per Share is higher than the greater of the Net Asset Value per Share at launch of the Share Class, and the Net Asset Value per Share at which the last Performance Fee was paid.

Sub-Investment Manager Method

The Sub-Investment Manager mechanism is similar to High Water Mark except that the performance of each Sub-Investment Manager is measured instead of Share Class performance. Additionally, for a Performance Fee to be paid, the performance of a Sub-Investment Manager must exceed the performance of the Hurdle Rate and it must be higher than it was the last time a performance fee was paid, or than it was at the first allocation of assets to that Sub-Investment Manager. Under this mechanism, a Performance Fee cannot be charged if the Sub-Investment Manager's performance is negative. However, a performance fee may be payable to one or more of the Sub-Investment Managers, even though the overall Share Class performance is negative.

As at 30 June 2020, Performance Fee rates and benchmarks on all Share Classes with suffix of "(perf)" are as follows:

| Sub-Fund | Applicable Share Classes | Performance Fee Rate | Performance Benchmark |
|--|--------------------------|----------------------|---|

* Subject to a 11.5% cap on any cumulative excess return.

5. Distribution Policy

Share Classes suffixed “(acc)”

Share Classes with the suffix “(acc)” are accumulation Share Classes and will not normally pay dividends.

Distribution Share Classes will normally pay dividends as described below.

Share Classes suffixed “(dist)”

It is intended that all those Share Classes with the suffix “(dist)” will, if appropriate, pay reportable income annually and will have “UK Reporting Fund Status”. Payment of dividends on these Share Classes will normally be made in September of each year.

Share Classes suffixed “(div)”

Share Classes with the suffix “(div)” will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund’s portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio’s expected yield.

Investors should be aware that “(div)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix “(div)” in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed “(mth)”

Share Classes with the suffix “(mth)” will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix “(mth)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund’s portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio’s expected yield. Investors should be aware that “(mth)” Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management and Advisory Fee and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of “(mth)” Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed “(fix)”

Share Classes with the suffix “(fix)” will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus. Share Classes with the suffix “(fix)” may be closed, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Share Classes suffixed “(irc)”

Share Classes with the suffix “(irc)” will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund’s portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix “(div)”, “(fix)” and “(mth)” do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds.

Details of the dividends distributed during the year ended 30 June 2020 are available on the website:
<https://am.jpmorgan.com/lu/en/asset-management/adv/products/fund-explorer/sicavs>

6. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax (“Taxe d’Abonnement”), up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in the Appendix. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the Taxe d’Abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV’s realised capital gains, whether short or long-term, are not expected to become taxable in another country, the shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

Dividends, interest and capital gains on security investments held by any Sub-Fund may be subject to non-recoverable withholding tax and Capital Gains Tax of varying rates in the source countries.

7. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund’s portfolio is available to shareholders at the registered office of the SICAV.

8. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV’s participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Associated risks are set out in the Prospectus.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

In emerging and less developed markets, in which some of the Sub-Funds will invest, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their overseas counterparts. Some markets may carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that an investment is suitable as part of their portfolio. In some markets there may be no secure method of delivery against payment which would minimise the exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

9. Collateral Received with Respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold or pledged.

Collateral received with respect to financial derivative instruments is shown in the Appendix.

10. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSF Circular 08/356 relating to the rules applicable to Undertakings for Collective Investment when they use certain techniques and instruments relating to transferable securities and money market instruments, (iii) CSF circular 14/592 relating to ESMA Guidelines on ETFs and other UCITS issues and (iv) any other applicable laws, regulations, circulars or CSF positions.

Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. 90% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 10% income is paid to J.P. Morgan Bank Luxembourg S.A. (See Note 18) for its role as securities lending agent for the SICAV. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 30 June 2020, the SICAV valuation of securities on loan is USD 3,408,031,699 as detailed below and received collateral with a market value of USD 3,586,253,862.

(2) This Sub-Fund was launched on 8 January 2020.

(3) This Sub-Fund was liquidated on 22 November 2019.

(4) This Sub-Fund was merged into JPMorgan Funds - Emerging Markets Corporate Bond Fund on 24 April 2020.

(5) This Sub-Fund was liquidated on 3 December 2019.

* The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

** Cash collateral may be reinvested into Reverse Repurchase Transactions with high quality government bonds as collateral. Income earned is recorded under the "Securities Lending Income" in the Combined Statement of Operations and Changes in Net Assets.

11. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward currency exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Global Distributor and Domiciliary Agent, Investment Managers, Depository, Corporate, Administrative and Listing Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) is compensated for legal services to the SICAV.

The following is a summary of transactions entered into during the year between the SICAV and the Manager and its Connected Persons. Connected Persons of the Manager are those as defined in the Code on Unit Trusts and Mutual Funds established by the Securities & Futures Commission of Hong Kong. All such transactions were entered into in the ordinary course of business and on normal commercial terms.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

Investment transactions with Connected Persons of the Manager

All the amounts are in Sub-Fund Currency.

| Authorised Sub-Fund | Total purchases and sales | Currency of the Sub-Fund | Percentage of Sub-Fund's total transactions* for the year |

| JPMorgan Funds - Global Government Bond Fund | 7,447,338 | EUR | 0.12 |
| JPMorgan Funds - USD Money Market VNAV Fund | 90,998,333 | USD | 0.25 |

(1) This Sub-Fund was liquidated on 29 June 2020.

* Total transactions is the total value in Sub-Fund currency of purchases and sales dealt during the year to 30 June 2020.

12. Commission Sharing Arrangements

The Investment Managers may enter into commission sharing arrangements only where there is a direct and identifiable benefit to the clients of the Investment Managers, including the SICAV, and where the Investment Managers are satisfied that the transactions generating the shared commissions are made in good faith, in strict compliance with applicable regulatory requirements and in the best interests of the SICAV and the Shareholders. Any such arrangements must be made by the Investment Manager on terms commensurate with best market practice. Due to their local regulatory rights, certain Investment Managers may make use of soft commission to pay for research or execution services. Other jurisdictions may have other arrangements in place to pay for such services in accordance with local regulatory obligations.

Where JPMorgan Asset Management (UK) Limited is the investment manager, all costs associated with the purchase of external research in relation to Soft Commission are being paid directly by JPMorgan Asset Management (UK) Limited.

13. Information for German Registered Shareholders

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial year, may be obtained free of charge upon request at the registered office of the SICAV and at the office of the German paying and information agent, JPMorgan Asset Management (Europe) S.à r.l., Frankfurt Branch, Taunustor 1, D-60310, Frankfurt am Main, Germany. Additional information on investments within each Sub-Fund's portfolio is available to shareholders at the registered office of the SICAV and at the office of the German paying and information agent.

14. Information for Investors in Switzerland

Representative in Switzerland: JPMorgan Asset Management (Switzerland) LLC, Dreikönigstrasse 37, 8002 Zürich.

Paying Agent in Switzerland: J.P. Morgan (Suisse) SA, 8 Rue de la Confédération, 1204 Geneva.

The Prospectus, the Key Investor Information Documents, the articles of incorporation, the annual and semi-annual financial report as well as a list of the purchases and sales which the SICAV has undertaken during the financial year may be obtained free of charge from the representative.

15. Authorisation of Sub-Funds in Hong Kong

Certain Share Classes of the following Sub-Funds are authorised in Hong Kong and are available to Hong Kong residents:

| | |
|--|---|
| JPMorgan Funds - America Equity Fund | JPMorgan Funds - Global Government Bond Fund |
| JPMorgan Funds - Asia Pacific Equity Fund | JPMorgan Funds - Global Natural Resources Fund |
| JPMorgan Funds - Asia Pacific Income Fund | JPMorgan Funds - Global Real Estate Securities Fund (USD) |

| JPMorgan Funds - Europe Small Cap Fund | JPMorgan Funds - US Value Fund |
| JPMorgan Funds - Global Equity Fund | JPMorgan Funds - USD Money Market VNAV Fund |

16. Directors' Fees

The only remuneration paid to Directors is an annual fee. This is waived by Mr Daniel Watkins and Mr Massimo Greco. The total Directors' fees for the year amounted to USD 477,482 of which USD 96,393 was due to the Chairman.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

17. Transaction Costs

For the year ended 30 June 2020, the SICAV incurred transaction costs which have been defined as brokerage fees included with the "Net realised gain/(loss) for the year" in the Combined Statement of Operations and Changes in Net Assets relating to purchase or sale of transferable securities, derivatives (except OTC derivatives), money market instruments or other eligible assets. The SICAV also incurred transaction costs charged by the depositary agent included within "Depositary, corporate, administration and domiciliary agency fees" in the Combined Statement of Operations and Changes in Net Assets relating to purchase and sale of transferable securities as follows:

| Sub-Fund | Base Currency | Depositary Transaction Costs and Brokerage Fees (in Base Currency) | Sub-Fund | Base Currency | Depositary Transaction Costs and Brokerage Fees (in Base Currency) |

For fixed income securities, transaction costs are not separately identifiable from the purchase price of the security and therefore cannot be disclosed separately.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

18. Significant Events during the Year

a) Sub-Fund launches

The following Sub-Funds were launched during the year:

- JPMorgan Funds - Thematics - Genetic Therapies on 24 October 2019;
- JPMorgan Funds - Global Bond Opportunities Sustainable Fund on 8 November 2019;
- JPMorgan Funds - Emerging Markets Sustainable Equity Fund on 13 November 2019;
- JPMorgan Funds - Europe Sustainable Small Cap Equity Fund on 6 December 2019;
- JPMorgan Funds - China Bond Opportunities Fund on 8 January 2020;
- JPMorgan Funds - Multi-Manager Sustainable Long-Short Fund on 14 February 2020.

b) Sub-Fund liquidations

The following Sub-Funds were liquidated during the year:

- JPMorgan Funds - Global Absolute Return Bond Fund on 22 November 2019;
- JPMorgan Funds - Systematic Alpha Higher Volatility Fund on 27 November 2019;
- JPMorgan Funds - US Corporate Bond Fund on 3 December 2019;
- JPMorgan Funds - Quantitative Flexible Bond Fund on 24 February 2020;
- The Sub-Fund JPMorgan Funds - Indonesia Equity Fund was liquidated on 29 June 2020. Please refer to the Combined Statement of Net Assets.

c) Sub-Fund mergers

The following Sub-Funds were merged during the year:

- JPMorgan Funds - Emerging Markets Diversified Equity Fund into JPMorgan Funds - Emerging Markets Dividend Fund on 24 April 2020;
- JPMorgan Funds - Latin America Corporate Bond Fund into JPMorgan Funds - Emerging Markets Corporate Bond Fund on 24 April 2020.

d) Changes to Sub-Fund benchmarks

With effect 28 October 2019, the following benchmark changes occurred:

- JPMorgan Funds - Europe Small Cap Fund changed its benchmark from EMIX Smaller Europe (Inc. UK) Index (Total Return Net) to MSCI Europe Small Cap Index (Total Return Net).
- JPMorgan Funds - Taiwan Fund changed its benchmark from Taiwan Stock Exchange Capitalization Weighted Stock Index (TAIEX) (Total Return Gross) to MSCI Taiwan 10/40 Index (Total Return Net).

With effect from 17 January 2020, the benchmark uses of all the Sub-Funds were updated.

With effect from 2 March 2020, the benchmark for JPMorgan Funds - Europe Dynamic Small Cap Fund was changed from EMIX Smaller Europe (Inc. UK) Index (Total Return Net) to MSCI Europe Small Cap Index (Total Return Net).

e) Changes to Sub-Fund investment policy, risk, exposure and global exposure calculation method

With effect from 30 July 2019, the investment policy of JPMorgan Funds - US Opportunistic Long-Short Equity Fund was updated to clarify that the Sub-Fund may be concentrated in a limited number of securities or sectors from time to time. Concentration risk will be also added to the Investment Risks of the Sub-Fund. There will be no change to the risk-return profile of the Sub-Fund.

With effect from 9 October 2019, the investment approach of JPMorgan Funds - Emerging Markets Aggregate Bond Fund was updated to remove flexibility to invest in local currency debt. The Sub-Fund has used this flexibility to a limited extent in the past and there is no intention to use it in the future.

With effect from 9 March 2020, the investment exposure and global exposure calculation method of JPMorgan Funds - Emerging Markets Aggregate Bond Fund was updated as follows:

Old Main Investment Exposure

At least 67% of assets invested, either directly or through derivatives, in debt securities issued or guaranteed by emerging market governments or their agencies; and by companies that are domiciled, or carrying out the main part of their economic activity, in an emerging market country. The Sub-Fund may invest in below investment grade and unrated debt securities. The Investment Manager may take active currency positions to maximise returns. The Sub-Fund may invest in onshore debt securities issued within the PRC through China-Hong Kong Bond Connect.

Old Other Investment Exposure

The Sub-Fund may invest up to 10% in convertible securities and up to 10% in contingent convertible bonds and up to 10% in equities, typically as a result of events relating to its debt holdings such as conversions or restructures.

Old Global Exposure Calculation Method

Relative Value at Risk (VaR)

With effect from 27 April 2020, the investment policy of JPMorgan Funds - US Short Duration Bond Fund was updated to provide the Investment Manager with increased flexibility to invest up to 25% of the Sub-Fund's assets in debt securities issued outside of the US.

f) Fee changes

With effect from 1 October 2019, a fee waiver was implemented to effectively lower the Annual Management & Advisory Fee;

| JPM Systematic Alpha I (dist) - GBP (hedged) | 0.60 | 0.75 |

g) Swing Pricing Mechanism

With effect from 17 March 2020 all Sub-Funds in the SICAV for which swing pricing is applied (23 March 2020 for JPMorgan Funds - Managed Reserves Fund and JPMorgan Funds - Sterling Managed Reserves Fund), the swing thresholds (typically 1%) have been reduced to 0% across all relevant Sub-Funds in the event of net redemptions on any given day. This means that swing pricing will be applied each day when there are more outflows than inflows in a relevant Sub-Fund, regardless of the size of these outflows. In the event of net subscriptions (i.e. more inflows than outflows), the usual swing thresholds (typically 1%) will continue to apply.

On 25 March 2020, the SICAV Board has delegated to JPMAME all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances caused by the Covid-19 outbreak. JPMAME will promptly notify the JPMAME Board and the CSSF in the event where swing factors increase beyond 2%. The Shareholders are informed of the above change via a website notification, as permitted by the Prospectus. As of date of this report, no Sub-Fund has applied a swing factor exceeding 2%.

h) P Share Class

P Share Classes in the below Sub-Funds were merged and effectively liquidated as follows:

JPMorgan Funds - US Growth Fund on 21 April 2020;

JPMorgan Funds - Managed Reserves Fund and JPMorgan Funds - US Select Equity Plus Fund on 26 June 2020.

i) Covid-19 Addendum

Beginning in January 2020, global financial markets have experienced and may continue to experience significant volatility resulting from the spread of Covid-19. The outbreak of Covid-19 has resulted in travel and border restrictions, quarantines, supply chain disruptions, lower consumer demand and general market uncertainty. There has been a significant correction in the financial markets over the months from February to May. The effects of Covid-19 have and may continue to adversely affect the global economy, the economies of certain nations and individual issuers, all of which may negatively impact the market.

j) Securities Lending Agreement

A securities lending agreement was signed on 25 June 2020 between the SICAV and the new securities lending agent, J.P.Morgan Bank Luxembourg S.A.. The former securities lending agent was JPMorgan Chase Bank N.A..

19. Significant Events after the Year-End

a) Investment Policy

With effect from 29 July 2020, the investment policy of JPMorgan Funds - Global Corporate Bond Fund was updated to remove the restriction to invest in global debt securities issued by local governments, and to allow investment in these types of assets up to 5%.

With effect from 29 July 2020, the investment policy of JPMorgan Funds - Global Corporate Bond Duration-Hedged Fund was updated to remove the restriction to invest in global debt securities issued by local governments and to allow investment in these type of assets up to 5%.

b) Changes to expected leverage

With effect from 29 July 2020, JPMorgan Funds - Global Aggregate Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 300% to 400%.

With effect from 29 July 2020, JPMorgan Funds - Sterling Bond Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 10% to 50%.

JPMorgan Funds

Notes to the Financial Statements (continued)

As at 30 June 2020

With effect from 29 July 2020, JPMorgan Funds - Systematic Alpha Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 350% to 500%.

With effect from 21 September 2020, JPMorgan Funds - Diversified Risk Fund has increased the use of derivatives, in line with its investment policy. This increased use of derivatives is expected to continue and as a result the expected level of leverage disclosed in the Prospectus will increase from 150% to 600%.

c) Changes to investment restrictions

With effect from 29 July 2020, JPMorgan Funds - Emerging Markets Local Currency Debt Fund investment restrictions have been updated to reflect that the Investment Manager may hold up to 20% of the Sub-Fund's net assets in securities issued or guaranteed by any one country (including any government body or public or local authority) with a credit rating below investment grade.

d) Integration of Environmental, Social and Governance factors

With effect from 29 July 2020, the following Sub-Funds have been updated to reflect that Environmental, Social and Governance factors are integrated into the investment process;

JPMorgan Funds - America Equity Fund

JPMorgan Funds - Asia Pacific Income Fund

JPMorgan Funds - Brazil Equity Fund

JPMorgan Funds - China A-Share Opportunities Fund

JPMorgan Funds - US Growth Fund

JPMorgan Funds - US Opportunistic Long-Short Equity Fund

JPMorgan Funds - US Small Cap Growth Fund

JPMorgan Funds - US Smaller Companies Fund

JPMorgan Funds - US Technology Fund

JPMorgan Funds - US Value Fund

e) Prospectus updates

With effect from 29 July 2020, for Sub-Funds which are expected to invest in mortgage-backed securities ("MBS") and/or asset-backed securities ("ABS"), the investment policies have been updated to indicate a percentage of assets which may be invested in these securities. In addition, for those Sub-Funds which are expected to invest 20% or more of their assets in MBS/ABS, the investment policies have been enhanced to include a description of MBS/ABS, underlying assets and any applicable credit quality restrictions. Certain other clarifications of investments in MBS/ABS and covered bonds have been also made for clarity and consistency purposes.

f) Sub-Fund merger

On 16 September 2020, the Board of the Fund resolved to merge JPMorgan Funds - Systematic Alpha Fund into JPMorgan Funds - Diversified Risk Fund subject to CSSF approval.

JPMorgan Funds - Africa Equity Fund
