### General comments

1. According to legislation in force, there is 15% tax on the Greek residents' interest from deposits in euros or in foreign currency.
2. The above interest rates on deposit are floating and they apply to the part of the deposit that corresponds to each scale, with the exception of the accounts "HSBC Premier Children" and "Feel Good", for which the interest rate applies to the whole amount.
3. The above deposit accounts are the basic deposits that the bank offers. For more information you can address to our colleagues in the branches.
4. There is no minimum amount required to open an account.
5. The above interest rates are subject to periodic review.

1 Interest rate: ECB - 0.25%, which in case it is negative, it will be calculated as zero

2 Interest rate: ECB - 0.50%, which in case it is negative, it will be calculated as zero
